Formula Description: Maryland receives an allocation from the appropriation amount of the regular block grant. The tier 1 base funding for the LIHEAP block grant is derived from a complicated formula that allocates funding based on census data, weather zones, heating and cooling degree days, total heating degree days for a calendar year, average 30-year heating degree days, residential coal consumption, percent of fuel used for heating/cooling by region, weather zone for fuel oil, natural gas, electricity, kerosene and liquefied petroleum gas as well as an extensive fuel criteria information. Maryland's percentage of the allocation from the tier 1 allocation is 1.607% (percentage). Targeted assistance funds are used primarily for employability services designed to enable refugees to obtain jobs with less than one year's participation in the program.

recent fiscal year for which information is available. The federal government pays 80% of the total amount of funds up to the amount of funds allotted to the state for the Educational and Training Vouchers Program. The state provides matching contributions to cover 20% of the costs.

Services include prevention, intervention, family preservation and family support. Investigations of reported abuse and neglect are conducted by local departments of social services. Families served receive in-home family services to promote child safety.

Formula Description: The State receives federal funding based on an allocation formula, which distributes funds to all states. The federal child welfare services appropriation is based on a variable formula, taking into account the population of children under 21 and the complement of the state per capita income, compared to the U.S per capita income. Statistical factors used in fund allocations are: (1) the population of children under 21 years of age by state; and (2) the three-year average per capita income by state. Income factors for eligibility do not apply to this program.

93.658 TITLE IV-E FOSTER CARE

Program Description: Title IV-E funds are federal funds that are matched by State dollars to pay for specific child welfare activities. Historically, title IV-E funds have been permitted primarily for children and youth while they are in foster care. In 2014, Maryland applied for the Title IV-E Waiver Demonstration. Waiver demonstration projects provide flexibility to States in their use of Title IV-E funds; funds would be used for programs to improve outcomes for children, rather than as a reimbursement for children qualifying as Title IV-E Eligible. The U.S. Department of Health and Human Services (HHS), Administration for Children and Families (ACF) approved Maryland for a Title IV-E Waiver Demonstration Project in October 2014 and implementation began July 1, 2015. The Title IV-E Waiver provides Maryland with the opportunity to test new approaches to service delivery and financing structures. No new funds are provided with the Waiver Demonstration. It provides flexibility of funding using Title IV-E

funds. DHR anticipates that the flexibility provided by the Waiver Demonstration Project will result in improved outcomes for children and families, including increased youth and family functioning; decreased entries into foster care (new and re-entries); reduced lengths of stay; improved social and emotional functioning; improved educational achievement; increased exits to permanence and decreased reports of maltreatment.

Formula Description: Title IV-E Foster Care Waiver Funds are issued as a block grant through FY 19.

93.659 ADOPTION ASSISTANCE

Program Description: The Adoption Assistance and Child Welfare Act of 1980 provided the first Federal subsidies to encourage the adoption of children from the nation's foster care system. These subsidies, known as adoption assistance, serve to minimize the financial obstacles to adoption. In addition, other types of assistance often are available to help with medical care or other services. Adoption assistance serves to remove barriers and contribute to an increase in adoption of children with special needs. In addition to the Federal subsidies, Maryland funds subsidies for those children who do not qualify for Federal subsidy.

Formula Description: The federal government reimburses the state for 50 percent of its adoption assistance payments. The federal share is 50 percent for administrative costs and non-recurring adoption expenses and 75 percent for training costs.

93.667 SOCIAL SERVICES BLOCK GRANT (SSBG)

Program Description: Supports social services programs for adults and children. The block grant statute gives states greater flexibility in the use of funds. Within limitations specified by law, states determine which services are provided, eligible categories, populations of adults and children, geographic areas of the state in which each service will be provided, and whether services are provided by state or local agency staff, or through contracts with private organizations.

Formula Description: SSBG grants are determined by a statutory formula based on the state population and total U.S. population. There is no matching requirement. Funding includes TANF funds (\$22.9 million) transferred to SSBG.

93.669 CHILD ABUSE PREVENTION & TREATMENT ACT (CAPTA)

Program Description: Provides funds for child abuse prevention activities, including training of child protective service workers, investigation of child abuse, and a variety of state-initiated innovative programs, which are designed to prevent child abuse and neglect or to provide services to victims and their families. These programs support research, evaluation, technical

assistance, and data collection activities to prevent child maltreatment. CAPTA also sets forth a minimum definition of child abuse and neglect.

Services provided to youth include educational assistance, housing assistance, leadership training, health and safety issues, budgeting and financial management, and assistance with job preparation, placement and retention.

Formula Description: Funds are allocated to the state based on a federal formula of the number of children living in out-of-home placement compared to other states, in the most recent fiscal year for which such information is available. The federal government pays 80% of the total amount of funds expended by the states (less any penalties). The state provides matching contributions to cover the additional 20% of the costs.
